

## **BIOMET 3i Synergy Training Program®** *Comprehensive Training in Restorative Implant Dentistry*

Successful implant dentistry is the result of a team effort. The best outcome is realized when each member of an implant team coordinates his/her efforts with other members. When team members have the opportunity to train and practice together, synergism naturally occurs. This approach is being applied to the practice of implant dentistry through the BIOMET 3i SYNERGY TRAINING PROGRAM (STP®).

It has been more than 30 years since the introduction of osseointegrated dental implants in the United States. However, many restorative dentists throughout the country still face the same perceived obstacles when it comes to incorporating implant dentistry into their practices. The perceptions include:

### **Most Restorative Training Courses Are Not Effective**

Restorative training programs need to focus more on diagnosis and treatment planning, so that dentists can develop confidence with implant restorative procedures. By following their own patient through the implant process via a real-world case during the course of the program, dentists gain the confidence to treat more patients.

### **Conventional Dentistry Is More Comfortable**

When recommending implant treatment, some dentists are not confident about the outcomes. In addition, they are uncertain about treatment planning, treatment sequencing and fees. Due to these uncertainties, many dentists are more comfortable

recommending conventional dentistry. Implant therapy needs to be a part of comprehensive treatment planning.

### **The Components Are Intimidating And Confusing**

Most restorative doctors have attended at least one hands-on training course presented by a dental implant company. However, some may walk away confused since so much is shown at one time and there is no clinical application. During the STP, participants will have the opportunity to use the components discussed in an actual clinical situation, reinforcing their learning experience.

### **Consultations Are Not Resulting In Patient Acceptance And The Cost Of Implant Treatment Is Excessive And Less Profitable To The Practice**

Dentists must be able to overcome the cost obstacle with patients and become comfortable quoting appropriate fees in order to gain patient acceptance of implant treatment while making it a financially viable procedure for the practice. To increase patient acceptance of implant treatment, there needs to be less emphasis on the technical aspects and more emphasis on the benefits of implant treatment.

***The BIOMET 3i Synergy Training Program was developed to overcome these obstacles. Comprehensive training in all aspects of restorative implant dentistry for dentists provide the tools and the confidence to successfully incorporate implants into their practices.***

## BIOMET 3i Synergy Training Program® (STP®) Format

### The Program Includes:

- > Five (5) sessions.
- > Thirty-five (35) hours of CE upon completion.
- > Restorative Torque Indicator Kit, a \$444.00 value.
- > Patient education materials (\$50.00)

*The STP is a five-session program offered during a nine-month period. Adequate time is allowed between the sessions for case presentation, implant placement and restoration. The restorative dentist will treat a patient to completion.*

**Tuition: \$ 1,750.00 USD (per participant)**

#### Session 1 –

#### MAKING IMPLANTS THE TREATMENT OF CHOICE FOR REPLACING MISSING TEETH

- Making implant dentistry conventional dentistry
- Treatment planning and mapping exercises
- Patient selection and diagnostic work-up
- Case presentations of single-unit posterior and fully edentulous mandible
- Building your restorative implant team and staff training
- Assignment of literature review

#### Session 2 & 3 –

#### TREATMENT PLANNING AND CASE PRESENTATIONS

- Literature review
- Treatment planning review
- Patient presentations and treatment plans
- Occlusion in implant dentistry
- Indications for implant design options

#### Session 2 & 3 (cont.)

- Provisionalization
- Surgical preparation
- Patient presentation letters

#### Session 4 –

#### RESTORATIVE PROCEDURES

- Literature review
- Patient status and review surgical procedures
- Impressioning procedures
- Abutment selection criteria
- Cement-retained vs. screw-retained
- Overdenture abutments and bar designs

#### Session 5 –

#### FINAL CASE PRESENTATIONS

- Treatment planning review
- Prosthesis delivery
- Complications in implant dentistry
- Implant maintenance
- Immediate Occlusal Loading

## BIOMET 3i Synergy Training Program Registration Form

**Enclosed is my payment of \$1,750.00\* (USD) to secure my participation in the BIOMET 3i Synergy Training Program sponsored by \_\_\_\_\_ and scheduled to begin \_\_\_\_\_.**

Attendee Name: \_\_\_\_\_ Type Of Payment (Circle) MC VISA AMEX DISCOVER CHECK # \_\_\_\_\_

Business Name: \_\_\_\_\_ Credit Card #: \_\_\_\_\_ Exp. Date: \_\_\_\_\_

Address: \_\_\_\_\_ Name As It Appears On Credit Card: \_\_\_\_\_

City: \_\_\_\_\_ State/Province: \_\_\_\_\_ Zip/Postal Code: \_\_\_\_\_ Card Holder Signature: \_\_\_\_\_

Office Phone: \_\_\_\_\_ Office Fax: \_\_\_\_\_

Customer# \_\_\_\_\_ Email: \_\_\_\_\_

If paying by check, please make check payable to BIOMET 3i. All forms should be completed and returned to the sponsor five (5) weeks before the beginning of Session 1 to secure participation.

\* Please include taxes where applicable.

Check here if you would like to receive special information or offers from BIOMET 3i via email.

Continuing Education Credits awarded in the U.S. for participation in the CE activity may not apply towards license renewal in all states. It is the responsibility of each participant to verify the requirements of his/her state licensing board. BIOMET 3i reserves the right to cancel a course no later than 14 days prior to the course date. Please be aware that BIOMET 3i is not responsible for reimbursement of a non-refundable airline ticket or any other travel expenses in the event that a course is cancelled.

BIOMET 3i is an ADA CERP Continuing Education Recognition Program recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. BIOMET 3i designates this activity for 28 continuing education credits.
